

GS150SD260513

**MODEL: PDG-150SD**

**INDUSTRIAL  
SERIES**

***Powercity***

*"30 Years of Generator Experience"*

**SOUNDPROOF & WEATHERPROOF  
AC DIESEL GENERATORS**

ISO 9001:2008 Cert.NO.:682452

# Powercity

" 30 Years of Generator Experience "

## MODEL : PDG-150SD

Powered by:

- Compact designed soundproof and weatherproof canopy .
- All canopy parts are designed with modular principles.
- Detachable designed doors provide most accessible for maintenance and repairs.
- All metal canopy parts are factory rustproof using special powder paint coating.
- Single point lifting eye designed for easy mobilization.
- Transparent glass control panel viewing window.
- Optimized ventilation design provides better generator cooling.
- Provision for external fuel tank for extended operation through fuel intake & return valves.

- **Coolpac Integrated Design** - Supplied with cooling package and air cleaner kit for a complete power package.
- **Single Poly Vee belt drive** for fan, alternator and water pump, with self-tensioning idler for minimum maintenance.
- **Inline-type Bosch Common Rail Injection** operates at high injection pressures for cleaner combustion and lower emissions.
- **Spin-on fuel filter** and full-flow lubricating oil filter.
- **Top mounted Holset HX40W turbo- charger** for increased power, fuel economy, and lower smoke and noise levels.

- Over-rated, brushless, rotating exciter with solid state AVR.
- Class H winding insulations provide high temperature resistance.
- Standard degree of protection IP21.
- Self exciting and self regulating.
- Factory impregnated epoxy varnished.
- Heavy duty steel frame cast-iron cover.
- Stator grease insulation covered.
- Flywheel location cooling fan.

- The PLC Generator set controller uses micro-processing intelligent and network technique which can carry out precision measure, constant value adjustment, timing and threshold setting and etc. of multiple digital parameters.
- Carry out functions including automatic start/stop, data measure, alarms indicates service affecting faults, and compatible with most standard ATS.
- Uses LCD display, optional Chinese and English display with easy operation, reliable and durable.
- Parameters can be set in site or in monitor center & can not lose even power off.
- Easy to replace with a plug-in type socket at the back of the control module and low cost to the end user.
- Automatic shutdown on fault conditions such us high temp, low oil pressure, over & under speed (RPM), over load & low fuel stock level.
- Another set of analog gauges for engine status monitoring including un-resetable run hours gauges to prevent tam

## SPECIFICATIONS

MODEL		PDG-150SD	
<b>• ALTERNATOR</b>			
Make & Model		POWERCITY SLG-274F	POWERCITY SLG-274E
Frequency	Hz	50	60
Output Rating (KVA)	Continuous	130	140
	Prime	150	165
	Standby	165	180
No. of Phases		3-Phase (4 Wires)	
Rated Voltage	V	200~240/380~440V	
Power Factor		0.8 (Lagging)	
Voltage Regulation	%	Within +/- 1.5	
Excitation		Brushless, Rotating Exciter (with A.V.R.)	
Insulation		Class H	

Make & Model		SDEC 6HTAA6.5-G22	
Type		Vertical Inline, Water-cooled, 4-Stroke, Common Rail Injection, Turbo Charged, Air inter-cooled	
Output Rating	Kw/rpm	140/1500	150/1800
No. of Cylinders-Bore x Stroke	mm	6 - 105 x 124	
Piston Displacement	L	6.5L	
Fuel		ASTM No.2 Diesel Fuel or Equivalent	
Fuel Consumption @75% load	L/h	25.2	27.4
Lube Oil Capacity	L	17L	
Coolant Capacity	L	40L	
Battery Capacity	V-Ah	12V-100Ah (2pcs)	
Fuel Tank Capacity	L	250	

<b>• UNIT</b>			
Dimensions	Length mm	3300	
	Width mm	1120	
	Height mm	1550	
Dry Weight	kg	2200	

<b>• SOUND LEVEL</b>			
dB @ 7m		68	70

(Specifications are subject to change without prior notice.)

# About Powercity

Powercity Corporation was established in 1993. It engaged in the selling, leasing, and distribution of diesel- and gasoline powered generators as well as electrical supplies.

The company was conceived by a man who has more than two decades of experience in the operation, maintenance, and service of engine-driven power generators made by leading brands in the market. These decades of field experience have resulted in the high-level of generator expertise needed to produce safe, user-friendly, cost-efficient, and dependable generators.

It started its business growth by providing generator repair and maintenance services in cell sites of a local mobile operator Smart Communications in 1996. Because of the company's outstanding performance Powercity gained recognition from Smart Communications and also gained opportunity from its rival Globe Telecom in the year 2000.

In 2002, the company established its own diesel generator manufacturing plant in China known as Powercity Electromechanical and Equipment Co. Ltd. The latter, investing in research, development and manufacture of Powercity generators, load banks, automatic transfer switches (ATS), electrical conduits, accessories, unistrut channel, clamps and dc fan ventilation. At present, Powercity delivers its products to the Middle East, Africa, Australia, and Southeast Asia including Philippines.

As the company maintained its good business relationship and reputation with Smart and Globe Telecom, Powercity gained another opportunity in Sun Cellular in 2005 in terms of sales and after sales service of Powercity generators.

POWERCITY CORPORATION has been serving other customers for the supply, installation and maintenance of generators and relevant products for the Philippine clients such as Luzon Hydro Corporation, Alcatel Philippines, Nextel Communications, Northern Telecoms, Lucent Technologies, Hutama Skyway Project and more.

Today, POWERCITY CORPORATION diversifies into marine engines, renewable energy and telecommunication products to bring an options to its potential customers
